Variability for promoters

Warning: Removed 404 rows containing missing values (geom_point).

```
## Warning: Removed 241 rows containing missing values (geom_point).
```

Normalizing information

The data have been normalized according to values found in island regions. Sufficient statistics for normalization is found in this table

terms	mean	sd
mhic_tumor	0.2047	0.2360
pwd_tumor	0.1031	0.0975
sample_var_tumor	0.0173	0.0278
mhic_normal	0.1645	0.2644
pwd_normal	0.0813	0.0910
sample_var_normal	0.0113	0.0256
