Variability for islands
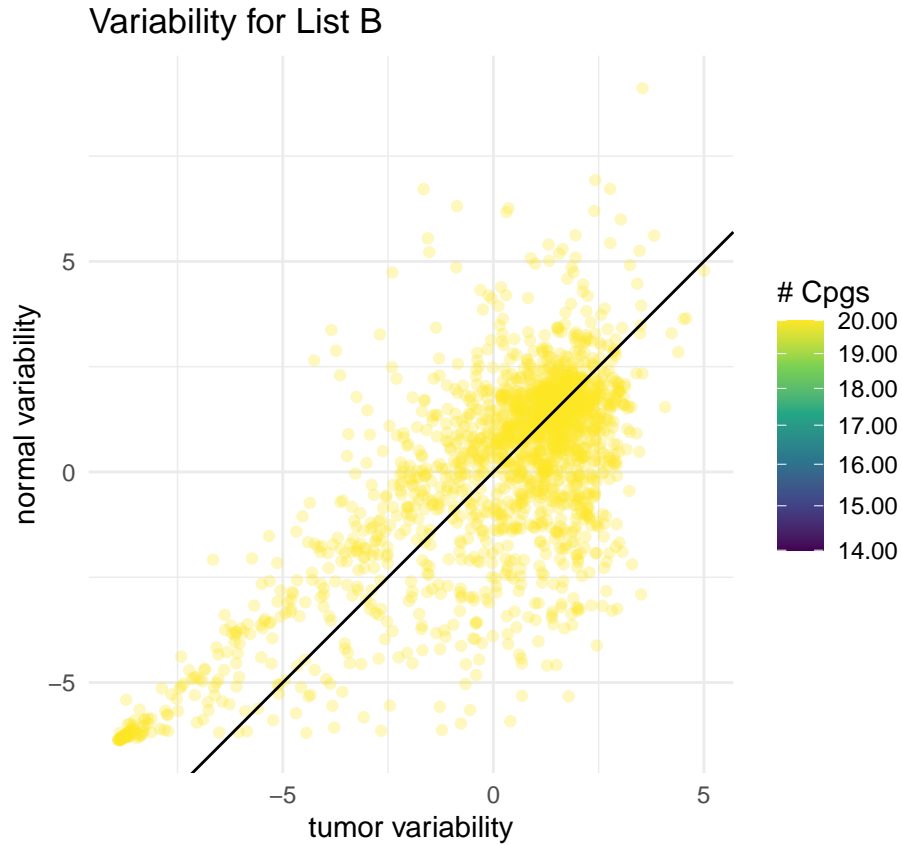

Variability for genes
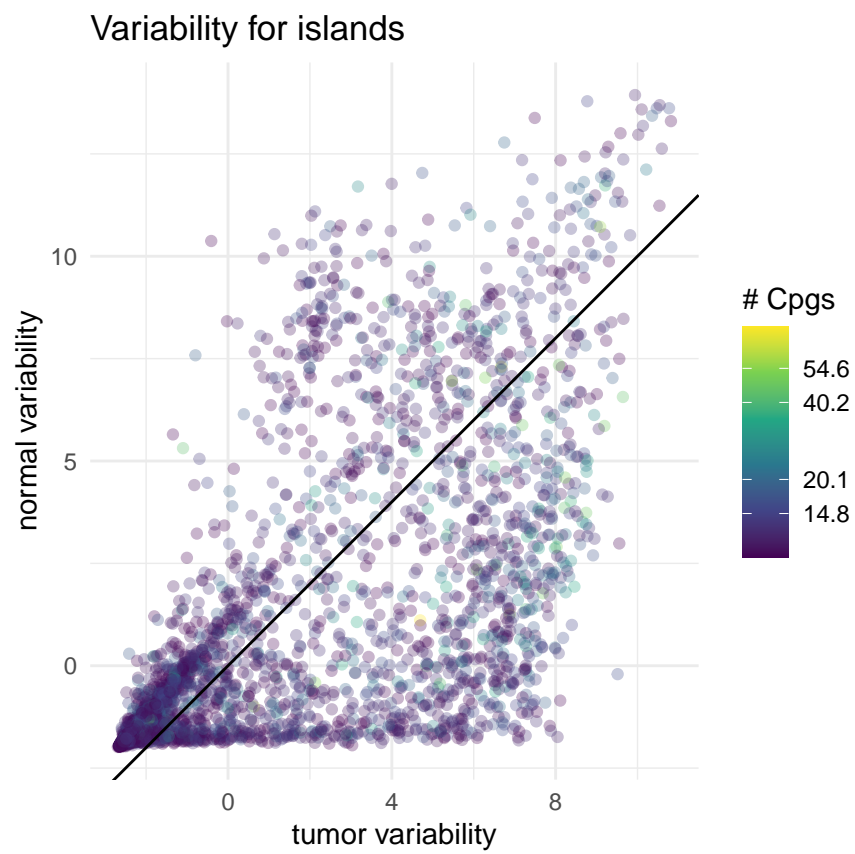

Variability for promoters

Variability for enhancers
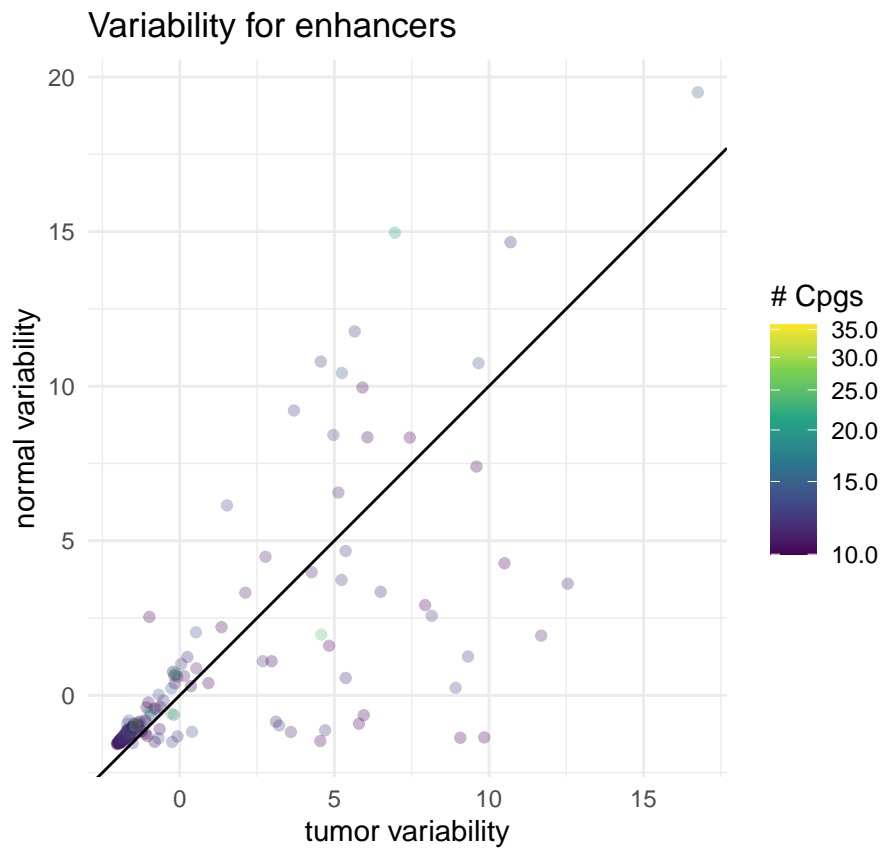

```
## Warning: Removed 203 rows containing missing values (geom_point).
```

Variability for List A
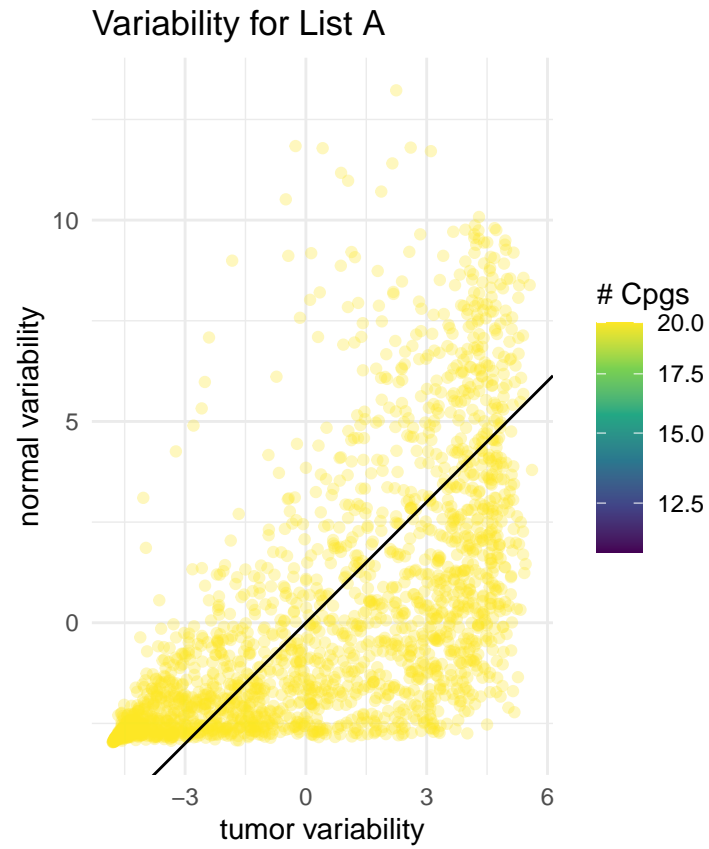

Warning: Removed 122 rows containing missing values (geom_point).

Variability for List B

Normalizing information

The data have been normalized according to values found in island regions. Sufficient statistics for normalization is found in this table

terms	mean	sd
mhic_tumor	0.1234	0.1815
pwd_tumor	0.0819	0.0894
var_sample_tumor	0.0157	0.0273
var_cpg_tumor	0.0140	0.0245
mhic_normal	0.0854	0.1675
pwd_normal	0.0623	0.0763
var_sample_normal	0.0100	0.0241
var_cpg_normal	0.0030	0.0093
